Skills rubric for practical exercises

Skills rubric for practical exercises

Use during Sessions 1 to 3 case practice and for **primary pre/post performance scenarios** in the pre/post check. Award **one point per criterion** (maximum 4 per exercise or scenario).

Criteria (all sessions)

#	Criterion	1 point when…	0 points when…
1	Input/use decision	Appropriate green, amber, or red with a valid reason	Wrong classification or no reason
2	Source verification	At least one consequential claim checked against an authorized source	No check or wrong source
3	Bias or omission	Identifies exclusion, harmful omission, or stereotype	Misses a taught error in the case
4	Human control	Names approver, override path, or stop rule	No human accountability point

Proficiency: 4/4 on an exercise. **Series target:** at least 8 in 10 participants who complete both entry and exit checks score 4/4 on the exit exercise (organizational reporting choice).

Exercise variants

Each session includes:

- One **low-risk** task where green (with checks) is correct
- One **must-stop** task where red is correct

Rejecting all AI use is **not** proficiency. Participants must distinguish appropriate use from prohibited use.

Facilitator scoring notes

- Score from the participant worksheet, not from eloquence in plenary
- Partial credit is not awarded; use 0 or 1 per row
- If a group disagrees, record the majority decision and note dissent in debrief
- Do not rank individuals or organizations in aggregate reports

Sample scored exercise (Session 1 SMS case)

Criterion	Example evidence	Score
Input/use decision	Red: draft contradicts source and exceeds reviewer authority	1

Criterion	Example evidence	Score
Source verification	Compared each line to bulletin W1 at 10:00	1
Bias/omission	Noted accessibility error (“all entrances” vs one step-free)	1
Human control	Named local communications lead for approval	1

Total: 4/4

Reporting template

Metric	Value
Participants with paired entry and exit	
Exit 4/4 count	
Exit 4/4 percentage	
Unpaired entry only	
Unpaired exit only	

Add a narrative limitations paragraph: sample size, self-selection, no control group, synthetic cases.
