Session 1 answer key and debrief questions

Session 1 answer key and debrief questions

Part A answers

Draft statement	W1 check	Action
Road B is open	Not established	Remove; ask authorized local source
All entrances are step-free	Contradicted	Correct; only Entrance E is step-free
Go directly there now	Outside reviewer authority	Stop; use alert approval process

Part B guidance

Step	Expected themes
1	Review draft only; manual route is established alert service
2	People using wheelchairs harmed by wrong accessibility info; route errors
3	Input is fictional bulletin only; no personal data in exercise
4	If tool used for translation, must be approved; terms matter
5	Each line checked against W1
6	Local communications lead approves; reviewer cannot send
7	Stop on contradiction; incident route per org policy

Part C model answer

- **Decision:** Red
- **Owner:** Authorized local communications lead
- **Protection issue:** False accessibility information excludes people who need step-free access
- **Manual fallback:** Established manual alert process

Debrief questions

1. Why is “sounds urgent” not a reason to send?
2. How is a translation error different from a policy violation?
3. What would change your decision from red to amber?

4. Who in your organization would you escalate to?

Rubric scoring (4 points)

Criterion	Look for
Input/use decision	Red with valid reason
Source verification	Completed table with contradiction flagged
Bias/omission	Accessibility or route harm identified
Human control	Named approver + manual fallback
