Session 2 answer key and debrief questions

Session 2 answer key and debrief questions

Part A

Structured prompt should restrict to Annex S2, forbid invention, name internal MEAL audience, and specify bullets.

Manager route: Amber or red if no approved tool, no verification workflow, or donor-facing use without MEAL sign-off.

Technical route: Examples: approved for internal data? processing location? training use of inputs?

Part B

Claim	Verdict
78%	Contradicted / invented
District-wide	Unsupported (S2 states no district estimate)
Severe/urgent	Unsupported escalation

Decision: Reject for donor use without full rewrite from S2.

Approver: MEAL lead or program director per org chart.

Debrief questions

1. What is the difference between a better prompt and a verified output?
2. When is rejection the correct professional response?
3. How would uneven connectivity affect your verification workflow in the field?

Rubric (4 points)

#	Evidence
1	Reject or amber with reason for donor use
2	Table references S2 correctly
3	Identifies invented statistic or harmful escalation
4	Names human approver
