Printable transparency card template

Printable transparency card template

Illustrative training-design sample. Not a record of delivered work. One page per proposed AI use. Session 3 facilitation sequence: see run sheet.

Online tool (optional): ParalleX AI Transparency Card (repository)

Field and prompt	Response
Name — Short title for this use	
Purpose — What task AI supports and why	
Tool and deployment — Product, version if known, where it runs	
Required tier — Tier 1, 2, or 3 (see SAFE AI crosswalk)	
Decision (green / amber / red) and reasons — Traffic-light decision with brief rationale	
Data involved — Types, sensitivity, retention	
Safeguards in place — Approvals, verification, human review	
Safeguards missing — Gaps to close before wider use	
Accountable role — Named owner for this use	
Next review date	
Change log — Date and summary of material changes	
Community plan 1 — How affected people are told about the use (channel, language, timing)	
Community plan 2 — How they can ask questions or complain (feedback route)	
Community plan 3 — How they are consulted and how their input changes the use	
Community plan 4 — How they hear back after input or complaints	

Classroom drafts use fictional cases only. Real consultation requires your organization’s AAP process.
